

Three Steps to Your Own Wallbox

Take full advantage of the benefits of the Webasto Pure

For your Webasto Pure charging station, you can also request a site analysis and an individual cost estimate for installation from a qualified electrical installer.

1 Order your Webasto Pure

Your new Webasto Pure and the associated installation and on-site analysis can be conveniently ordered online or with your nearest Webasto dealer.

2 Book on-site analysis

No parking space is like any other. That is why a qualified electrical installer examines the circumstances on site. For example, available electrical connections, the clearance from the fuse box or the length of the required cable are all checked. You then get comprehensive documentation as well as an individual quotation for the installation.

3 Request installation

At a further appointment, the electrical installer carries out all necessary installation work such as assembly, connection, and commissioning. You then get full operating instructions. From now on you can charge your electric car quickly, easily and safely.

The Webasto Group is a global innovative systems partner to almost all automobile manufacturers and among the top 100 suppliers in this industry sector. The company's product portfolio comprises a broad range of roof and heating systems for every type of vehicle and all drive types as well as battery systems and charging solutions. Moreover, Webasto has a strong position in the after-market providing dealers and end customers with customized solutions and services relating to thermo management and electromobility. In 2019 the company generated sales of around 3.7 billion euros and had almost 14,000 employees at more than 50 locations (with over 30 of these being manufacturing plants). The headquarters of the company, founded in 1901, is located in Stockdorf near Munich (Germany).

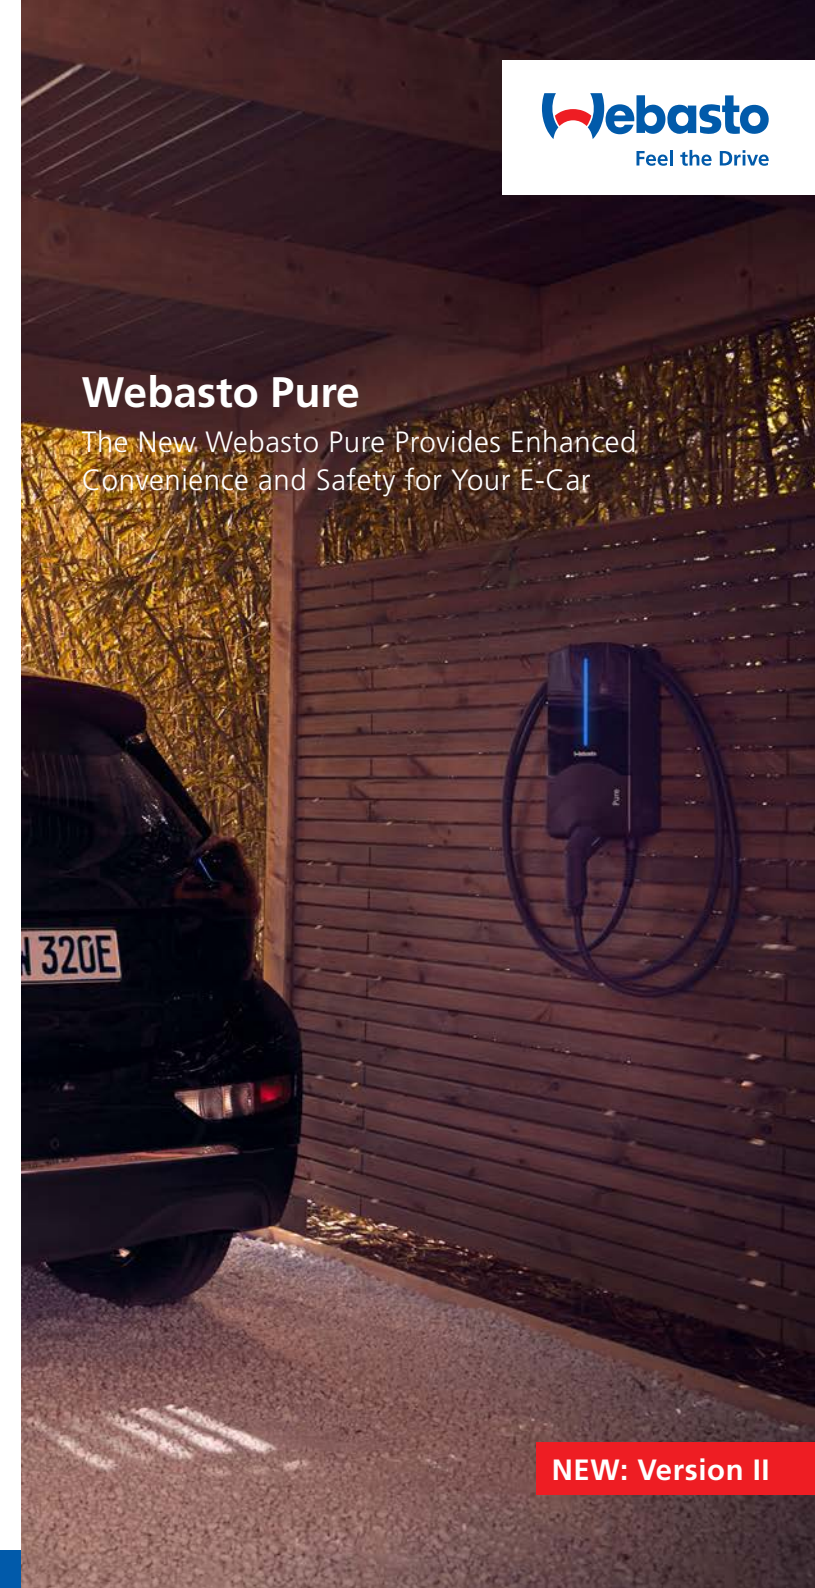

More than just charging?

Smart, efficient, and connected:
The Webasto Live can do much more than just charging. This makes Webasto Connectivity the perfect digital addition to your charging station. Find out more at charging.webasto.com
