| System Status                |                                   |    |
| Charge point identity        | NEXT-WS101873                     |    |

Select **System, System Information**, and then find your current Firmware version under **Comboard SW** version.

Access the WebUI using a web browser. To do so, you can:
1) Connect to the WiFi hotspot\* of the charging station.
Enter the IP address: 172.20.0.1 or
2) Use your own network and go to https://NEXT-WSXXXXXX or https://"Wallbox IP address".

\* For login data see your user manual

Download and unpack the **appropriate Firmware** Update file from:\*\* https://charging.webasto.com/int/ products/documentation/

> \*\* You must locally update Firmware version 3.1.4 to version 3.1.16

Webasto Thermo & Comfort SE Friedrichshafener Straße 9 82205 Gilching Germany
